

The *ANDI-GAP* Dive Planning Software

Download a FREE 14-day, Full Version Trial At:

[D OWNLOAD HERE](#)

The *ANDI-Gap* software, developed by Kees Hofwegen (with input by Bart de Gols, Joe Radomski and others) is now available. While many of you who are familiar with the famous "Gap Dive Planning Software" may see some similarities, be advised that the proprietary *ANDI*

-Gap Software has very many new and exclusive features.

Complete dive planning information, Dive Table generation, printable detailed reports, a proven track record, user friendly format and low cost are only some of the strong features of this product. Many other unique features make this program a vital tool in any diver's equipment inventory. The *ANDI-Gap* DivePlanner supports all diving applications from recreational and technical diving from SafeAir to full Tri-Mix diving with open- 2 circuit or constant PO

²
closed circuit rebreather system options. Of course, it can switch between Metric and Imperial units and is also available in several western languages.

This unique software has full profile analysis capabilities which enables a minute by minute analysis of the profile where the tissue loading, decompression profile, gas switches and ceiling indication is shown. A requirement for *ANDI* instructors. Available through your local *ANDI* Training Facility!

Either *ANDI* Training Facilities or individuals can register the software with *ANDI* International. Send an email to registerandigap@andihq.com and supply the following information: the *ANDI* Training Facility that the software was purchased from, User Name, Country and Postal Code, Unique ID Number, and specify which version / part number is being registered (CCR/SafeAir, or CCR/Trimix). The activation code will normally be emailed within 48 hours of receipt.

The unique ID number for your specific computer is found by running the software, clicking on the "Help" on the menu bar, and choose registration. The Unique ID Number is located in the lower corner of the pop-up dialog box.

It WILL NOT work for any other computer.

Dive Planning Computer Software		End User
Part #	Product	
6-001	ANDI	-GAP DivePlanner (Level 3) SafeAir
full function for O/C & CCR	\$29.00

Any *ANDI* facility or RHQ that sells the software needs to e-mail us

registerandigap@andihq.com

Provide us with the customer's name and software level. The store/RHQ can have the customer send their specific info to the registration email address or have the store/RHQ do it for them. We will pick up the request, and generate the key(s) by return e-mail

Additional Questions? Contact *ANDI* IHQ or Joe Radomski, ITD#10
