

Translated from Hebrew on Israeli Navy letterhead. Original document on file at ANDI HQ.

March 14, 2005

To: ANDI Israel
Attention: Mr. Nir Avni, Director
From: Major Mordi Alkobi
Subject: Note of Appreciation

Dear Sirs,

During the year of 2004, with the assistance of ANDI Israel, the Yaltam unit acquired operation ability in Technical and Tri-Mix diving. This ability included purchasing the necessary diving equipment and adjusting it to the unit's unique needs, purchasing and building the breathing gas production system, training and certification of Yaltam divers as ANDI Technical and Tri-Mix divers and the production of specific diving tables using the ANDI DivePlanner.

This knowledge and training levels were achieved in a short period of time and in a very professional manner thanks to the tight escort of the Director of ANDI Israel, Nir Avni. The entire process was closely supervised by Nir Avni whom embraced the concept of transferring the ability and knowledge to the Yaltam Unit while contributing his own time and energy in a unique and easy-going manner. This new knowledge and ability puts the Yaltam unit's Dive Team and the Israeli Navy at the forefront and among the most professional divers in the world.

For all of the above, please accept my thanks and appreciation.

Major Mordi Alkobi,
Commander of Yaltam
Israeli Navy
